Just a word regarding "Waterloo Mixed." This is not really a mixture at all—it's an assortment of named varieties and is just the thing for the man growing only a few hundred, either for forcing or outside.

Terms, 60 days net, less 2% if paid in 10 days, less 5% cash with order. Sold F. O. B. Waterloo, Iowa, with no charge for packing.

Extra Special—All orders received before January 1st and accompanied by remittance are subject to 10% discount.

It's wise to order early and have us hold in storage for you until wanted—no extra charge for this service and often prevents disappointment.

We have doubled our planting and at the present writing (July 4th) everything indicates an enormous crop of "Extristrong" bulbs.

If you use quantities of from 5,000 to 100,000 it is worth white sending us your list of requirements for special pricing.

Also—Keep this list and every time you think of bulbs refer to it. A friend says: "Get your bulbs from Waterloo—that's where Napoleon got his."

Mr. Smedley:

Earlier in the season I bought several thousand bulbs, but did not buy them from you. That's why I am buying from the Gardens of Smedley again, because you have the goods and I get them. The small amount I saved on express did not bring bulbs of quality.

This letter is so self evidently unsolicited that we decided to broadcast it.
YES, we have the goods and you get them.
